Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by US patent #6,480,885 (Olivier). Rationales for the rejection continue to be as set forth in the last Office action.

Response to Arguments

3. Applicant's arguments filed have been fully considered but they are not persuasive.

REMARKS:

The applicant argues that Olivier's step 212 may correspond to the applicant's one of a first or second generation means/step, but not both. The applicant however concluded that Olivier's step 212 maps only to the applicant's second generation means/step, and thus Olivier fails to teach the first generation means/step as claimed. In response to the argument, Olivier's step 212 as broken down into the sub-steps of figures 5A and 5B meet both the claim language of "first generation means for generating a first set of information corresponding to a virtual space

Art Unit: 2179

capable of being utilized by said plurality of users using said other information apparatuses”, and “second generation means for generating a second set of information corresponding to an information list showing said community a first user participates in, from information relating to said plurality of users with its recording controlled by said second generation means”. In figure 5A and 5B, at least one of the steps 444-447 read on the claimed “first generation means...” and its associated function. At least one of the steps 474-479 read on the claimed “second generation means...” and its associated function.

It should be noted that (for a complete prosecution of this case), Olivier’s disclosure could also be interpreted to read on the claimed invention as followed:

“first recording means”: Olivier’s teaching of creating the mailing lists (5:15-18),

“second recording means”: Olivier’s teaching of recording user profiles and acceptance parameters (5:18-22),

“first generation means”: Olivier’s teaching of creating the website, collecting user input, and creating a database of collected information (5:23-27),

“second generation means”: Olivier’s teaching of calculating match and providing a result of match calculation (5:27-32).

In response to the argument that Olivier does not teach a virtual space, the virtual space is disclosed as email space, chat room, online rendezvous, etc (3:23-59).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2179

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
